Bronzette with
metal blades and safety cage

	Safety cage compatible
	Suitable for Damp Location**
	Proudly Assembled with American Labor
	Handmade

The Brunna Parede is reminiscent of the wall fans of the early 20th century. The fan head of the Brunna Parede wall mounted fan can be infinitely positioned vertically and horizontally across 180-degree arcs to provide maximum directional airflow. It can be mounted in small, awkward spaces or in front of HVAC ducts to make more efficient the heating, ventilation or air conditioning of any space.

- Constructed of cast aluminum, heavy spun and stamped steel, the Brunna carries a limited lifetime warranty.
- Equipped with hand-balanced metal fan head with metal safety cages.
- Damp location rated if ordered with protective powder or clear coatings.
- Brunna Parede does not oscillate.
